

When Coleman Burned—One Man Innocently Carried Six Sticks of Dynamite; Another Forgot to Put His Trousers On

The Editor,
Coleman Journal.

Sir:

Sometimes I think I would have made a fair newspaper man—perhaps a bit different from the ordinary. In fact I did print and edit a small fortnightly sheet at the age of thirteen or so. Ever since I have felt a kinship for the press. I feel that I can converse with an editor "in the know." Now let me report certain early fires in Coleman and vicinity as I knew them. Current press records would probably state how the blaze was fought, what was the loss and how everything stood in regard to insurance. All this is conventional. Let me give the stories as from one on the inside.

In the first place, the Coleman Hotel caught once in its early days. It was said that a guest had lingered too long in the bar. There was not electric light at the time and, as he was retiring in his third storey room, he upset his lamp and started things. The alarm was raised. We all turned out. The men were mostly in the halls, the young ladies peering through doors opened just wide enough to see and to hear if a sudden departure should prove necessary. Along the upper hall came—well, perhaps I had better omit names. Let us say that it was an important member of the staff. He was arrayed in an exceedingly neat combination suit. Over his left arm hung his trousers, the braces swinging to his stride. In his right hand he carried a fire extinguisher. He did excellent service, for soon the word was passed, "All out!"—the fire, not the guests. There was a quiet little sequel next day. Again I was upstairs when a gentleman approached me. He was a bachelor, holding a "white collar" position and noted for the correctness of his attire. "I want to speak to you," said he, as he led me into the vacant ladies' parlor. As I have had occasion to say before,

the clergy are supposed to be ready for consultation and advice at any time, so I gave him careful attention.

"I want to ask you," he said with great seriousness, "did I have my trousers on at the fire last night?" Had I been in a frivulous mood, I might have asked, "Who should know that better than yourself?" However, I recognized that such an attitude would be out of place under the circumstances, so I simply said that I had not noticed him at the time and could not say. He told me that some shameless acquaintances had informed him that he was pantless and he feared that I was putting him off so as not to spoil their dastardly so-called fun. I assured him that I spoke the truth. If he should read this, after thirty years, I again protest that I know no more than he does as to his trousers that night.

Some time after that, we had a really big fire across the road from the hotel. It may be remembered that, on the corner going down to the station, was the Graham building. Next to that, on the west, came the Cameron block, with the stores of Alexander Cameron and D. J. McTire and rooms above. Then came the single-story drug store followed by some more two-story places. At the east end of the Cameron block a stairway led to the upper rooms. I now occupied the front room at the extreme end of the corridor, next to the drug store. The fire started from a defective flue, it was said, in one of the buildings west of the drug store. It spread swiftly towards us. I began to move out my belongings. There was no proper fire-fighting apparatus. Our minor friends always seemed to have great faith in the power of dynamite. On one of my trips to my room I observed that the street in front was being swiftly vacated. It appeared that every effort was being made by citizens to put distance between the school term, when they will move to Alexo.

(Continued on Page 4)

CHIEF SCOUT BETTER

Liverpool, Eng., April 17.—Lord Baden-Powell, founder of the Boy Scout movement whose life was almost despaired of early this year, was able to walk today with the aid of two sticks when he returned from a Mediterranean cruise.

Lord Baden-Powell, who underwent internal operations January 4 and 20th, is 77 years old.

MISCELLANEOUS

Colie's theatre, Bellevue, announces as the Friday-Saturday feature Marie Dressler and Lionel Barrymore, two of the screen's most famous stars, in "Her Sweetheart." With selected short features, this should make an excellent program.

Coleman Cafe is undergoing interior renovation, right through from the front of the place to the back door of the kitchen. George Graham and his assistant, Everett Price, will make a thorough first-class job at this popular cafe.

Wes. Vincent, resident here for 21 years, and power house engineer at McGillivray Co., left last week to take the position of master mechanic at Alexo mine. Mrs. Vincent and George and Thelma will remain till the close of the school term, when they will move to Alexo.

FOOTBALLERS OPEN SEASON
ON SATURDAY AT COLEMAN

Locals to Meet Hillcrest
Kick-off at 6 p.m.

Joe Emmerson, amateur footballer and president of Coleman Athletics, states the boys are out to win the Crow's Nest Pass championship this year, and to get into shape are meeting Hillcrest in an exhibition game on Saturday at 6 p.m.

Well-known hockey players, Bill Fraser and Jimmy Joyce, centre forwards of the Canadians, and Freddie Brown, right wing, are playing football to keep in shape, and if they do as well in football as in hockey, the Coleman will be bringing home another championship. It looks like a good season with lots of support.

The League will now consist of Hillcrest, Bellevue, Blairmore, Coleman and Kimberley. All the delegates expressed themselves as being well satisfied with the success of the league last year and were unanimous that this season would be bigger and better than last year.

COLEMAN RESIDENT IS
DESCENDANT OF U. E. L.

An interesting story in Saturday's Calgary Herald on the United Empire Loyalists, as the 150th anniversary of their settlement in Canada approaches, brings to mind the fact that G. R. Powell of Coleman is a descendant of these brave settlers, his great grandfather having been one of the original Loyalists who made their way to Canada from the States that they might continue to live under the British flag, following the revolution of 1776.

Mr. Powell, though 74 years of age, is carrying on active business in his jewelry store, enjoys a game of golf and takes a round of golf with as much vigor as men much younger. He is one of the few who have climbed Crows Nest mountain, and says he feels able to do it again. For over 50 years he has been a member of the Masonic Order. The Journal with many friends and acquaintances joins in wishing him jolly good luck.

**Canadians Hockey Team Tendered Banquet By
Executive—Citizens Make Fine Presentation**

Officers and Executive Re-elected
Many Important Matters Discussed.

The annual banquet and meeting of the hockey club held in the Grand Union on Friday, April 13, was presided over by Frank G. Creegan, president of the club, executive members, players and a number of supporters being present.

The only toasts were to "The King" and "The Press" the latter being responded to by H. T. Hillcrest, Jack Kwasney proposing the toast in a few appropriate words.

A. M. Morrison related some interesting reminiscences of 27 years ago, when on the night of his arrival he ran into a hockey match between Coleman and Frank. Coleman had always been on the hockey map, but never had they a team of whom they were more proud than this year's champions.

J. A. McLeod of the executive urged that next season the Canadians enter senior hockey, for he felt the team was the superior of many Alberta senior teams. Rev. Roy Taylor expressed his appreciation of the fine spirit shown by the boys, and complimented them on their series of successes.

Mayor Pattinson joined in the general expressions of appreciation, and expressed regret that W. Bell, who had been an enthusiastic supporter, was unable through illness to hear some language, but was unable to be present. A vote of thanks was passed to Mr. and Mrs. Bell for the fine service given in serving the banquet, and to Distributors Ltd.

Following the banquet, the annual meeting was held, Robert Pattinson, secretary, reading the financial statement showing a surplus of \$218.03. Total revenue for the season was \$1,513.67.

H. C. McBurney and R. F. Barnes considered the club for the good cause and adopted the statement was adopted.

Last year's officers were re-elected.

on unanimous vote: F. G. Creegan, president; Robert Pattinson, secretary; J. A. McLeod, Rev. Roy Taylor, Dr. Keith McLean, C. J. Devine, executive; Jack Kwasney, coach; Ivor Bolt and J. Atkinson, trainers.

Appreciation was expressed to President Creegan for his good work as president, and to Jack Kwasney as coach, a hearty round of applause being given them, also Bob Pattinson for his faithful work as secretary.

Considerable discussion ensued on the operation of the rink, H. C. McBurney giving some figures showing that overhead was not being met from revenue, and depreciation was not being made good. A large sum of money was required to make necessary repairs, but no definite plan was brought forward. Mr. McBurney stated there was an initial investment of \$22,000, and revenue was only \$325 to meet insurance and overhead.

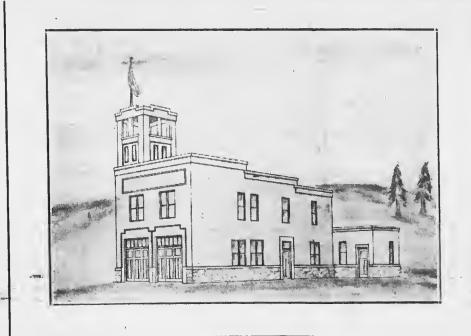

The meeting closed shortly before 11 p.m., after discussion of transportation, financing and equipment had been given a thorough airing.

Now he's taken up golf. He bought a nice new bag and a few clubs, and placed them against the radiator when it was cold. Someone fired up, and a burned bag resulted. The roving reporter happened along just as Bell, who had been an enthusiastic supporter, was unable through illness to hear some language, but was unable to be present. A vote of thanks was passed to Mr. and Mrs. Bell for the fine service given in serving the banquet, and to Distributors Ltd.

Following the banquet, the annual meeting was held, Robert Pattinson, secretary, reading the financial statement showing a surplus of \$218.03. Total revenue for the season was \$1,513.67.

Forest Ranger "Bill" Antle will leave this week to resume duty at North Rock. His wife and children will remain till school holidays, when it is likely they will move out to that beauty spot so much favored by Antle, who always goes a bit crazy for getting up so early in the morning.

COLEMAN TOWN HALL

IN KEEPING with the improvement scheme inaugurated last year by Mayor Pattinson and the council, further work is now under way on the town hall. The first stage of the work was the clearing and laying out of the vacant lot between the United church and the town building, and a stone wall with ornamental fence surmounting it was erected. Trees and shrubs were planted, which turned what had been an eyesore for a score of years into an attractive spot.

THE NEXT STAGE is the building of a stone wall around the lower part of the hall, and the exterior will be veneered with cement blocks. Structural alterations are being made as shown in the above drawing, and most of the labor involved will furnish work to unemployed ratepayers.

CONTRACTOR J. S. D'Appolonia drew the plans and has charge of the work. Such improvement will doubtless be approved and has elicited much favorable comment.

BUILD REPAIR MODERNIZE

IMPROVEMENTS on the exterior of the town hall demonstrate the remarkable change in appearance achieved by our modernizing methods. Let us do yours!

Another Season Opens

Advent of spring conditions has stirred residents of the prairie provinces to active preparation for the new crop. They approach the accustomed tasks with a variety of feelings induced by their new vision of the status of agriculture in the economic fabric of the country. Their future is not so clear, perhaps, as it once was, because they have yet no settled convictions as to what the net effects of the marketing and control legislation, before provincial and federal legislatures, will be upon their own husbandry. They are hoping for the best, realizing that, if there is a bumper crop, the exact significance of the new legislation will become at once apparent.

In those sections of the prairies which have suffered from drought conditions as well as from the prevailing economic depression, the new season revives a hope that world efforts to raise prices of farm produce will have been successful before the new crop goes on the market. They hope the season for them will mean release from the plight which has forced them to be dependent upon relief; that a more propitious season will place them again upon the road to independence, security and prosperity.

Prairie folks have well-earned the circumlocutions heaped upon them by those more fortunately situated, for their fortitude and solidarity throughout their time of trouble. Each spring has seen them return to the world seasonal employment with energy unimpeded by successive privations and disappointments. They have seen their hopes frustrated, their work nullified, their reserves shrink to vanishing point; but they have not wittled under the strain. Throughout, they seem to have been inspired by something akin to that philosophy which Count Leo Tolstoy put into the mouth of one of his characters:

"They say: sufferings are misfortunes. . . . We imagine that as soon as we are torn out of our habitual path all is over, but it is only the beginning of something new and good. As long as there is life, there is happiness. There is a great deal, a great deal before us."

Theirs has not been mere passive submission to oppressive circumstances either. They are earnestly seeking leadership and a way out of their difficulties, and for some means of averting future danger of a recurrence of the conditions which have brought them disquiet. They are looking for development, sooner or later, of a new economic structure, which will give them assurance of better returns, and more stabilized returns, for their labours. They see evidences of a striving after the end they seek in home, imperial and foreign fields, and they believe that the lesson of the depression is not, after all, to be ignored.

It is but little over a year ago that Will Dyson, in satiric mood, was moved to say:

"There never was in the world at any moment so many men going through the motions of thinking without thought resulting."

It is true, there has been much vain, impractical thinking, much invention of chimera new words. But it is to the everlasting credit of the prairie sections of Canada that, at a time when forces seemed impelling them to pursue some phantom remedy of release, they have resisted the temptation and clung tenaciously to the path which common sense and past experience have taught them was best suited to their needs and most consonant with their desires. It was no impractical, enigmatical, abstruse "ism" they wanted; it was leadership and a road back to a normal condition in the realm of trade and commerce based upon a "live and let live" principle.

The new orientation of their aspirations as citizens of an agricultural region was indicated, recently, in the growing appreciation of the need of a balanced development of all natural resources of commercial value. Saskatchewan residents have reason to enter upon the new era with enhanced hope and profounder convictions of the great future awaiting their province. The occasion of the gas strike in the Lloydminster area was considered important enough by the premier of the province, to warrant mention on the floor of the legislature; and, indeed, striking of a gas flow of from eight to ten million cubic feet per day cannot but be interpreted as a happy augury of future development. Accession of the province, too, to a place of importance as a gold producer, has been signalized in recent months, gold production having advanced from around \$500 in 1932 to more than \$110,000 in 1933—an amazing leap, with greater in prospect. These facts, stimulating the imaginations and widening the horizons of residents of a region hitherto considered almost solely as agricultural, are contributing their part to the new energy with which prairie folk are addressing themselves to the wonted tasks connected with the spring season.

Chinese Sense Of Honor

Thrilled At Ninety-Seven

Boy Slaved Lifetime To Pay Debt Of His Father

An extraordinary instance of Chinese filial piety, involving half a century of toil and labor for the sake of a lifetime, has just been officially recorded with additional detail in the chronicles of the Techi district. In 1883 a man named Chang died penniless and owing a debt of \$120 to his best friend, a man named Yih. Chang left a "will" ordering his son, then ten years old, to repay the debt. But Mr. Yih appeared at the Chang funeral and, circumlocutiously, forgave the debt. Just recently the Chang boy, now a white-haired man sixty years old, appeared at the Yih home—stead with \$120 to discharge the debt. The Yih family refused to accept the money, so an arbitrator was called in, and finally the money was given to the local primary school.

The Sudan now has 112 official aviation landing fields

Health For Young Girls
 Happiness For Tired Women

Thousands of women become tired out and run down, become thin and pale, and profound weakness makes life a burden.

The whole outlook of life is changed when the nervous, sick headaches, the sleeplessness, the spells of dizziness, of weakness and discouragement, and the tired, languid feelings disappear with the use of Milburn's H. & N. Pills. They tone up the nerves, enrich the blood, and bring the health back to normal again.

Trailing Rare Goose
 Expedition Trying To Find Nesting Place Of White Variety

The combined efforts of the Canadian government, the Royal Canadian Mounted Police, the Hudson's Bay Company and the Eskimos of Baffin Island were required to track the blue goose to its breeding grounds.

An expedition equipped to travel by canoe, dog sled, snowshoes and airplanes has gone to British Columbia in an effort to find the nesting place of the rare white variety known as Ross' snow goose. It was first reported in 1861 and observed in the vicinity of Sacramento, California. Although since then it has been seen in flight both in the south and the north, its breeding place has never been discovered.

In the winter months Ross' goose is a frequently observed species, but in the spring it is lost after flying beyond the latitude of Great Slave and Great Bear lakes, and its return home is problematical. The victim of modernity, which denies the right of privacy.

Rheumatism Got Him

80-years-old Pianist Is Relieved by Kruschen

Although old age has not yet kept this man from his occupation as a pianist, rheumatism did threaten to do so recently.

"Two years ago," he writes, "I was suddenly taken with rheumatism and down my left arm. I tried many remedies all to no purpose. I then commenced taking a half-teaspoonful of Kruschen Salts every morning, and the rheumatism disappeared almost entirely."

"I am more pleased, as I am a pianist, than ever before. I am in good health and am in good health," G. L. A.

The salts mineral salts of Kruschen have a direct effect upon the whole body, neutralizing acids and alkalis, and is the recognized cause of rheumatism. They also restore the eliminating organs to proper working order, and so prevent complications thereby clearing the further function of the urine acid and other body poisons which undermine the health.

Water Softens Metal

Anaizing Results Obtained By Use Of New Machine

It is said that constant dripping water always does to-day is easily demonstrated that the job of washing can make the hardest metal seem as soft as cheese.

The salts mineral salts of Kruschen have a direct effect upon the whole body, neutralizing acids and alkalis, and is the recognized cause of rheumatism. They also restore the eliminating organs to proper working order, and so prevent complications thereby clearing the further function of the urine acid and other body poisons which undermine the health.

Public Works Program Will Be Brought Before Parliament Soon

Ottawa. The public works program which will be brought into parliament soon as an effort to relieve unemployment will be based to a considerable extent on the recommendations made to the government by the National Construction Council. The council's final list provided for construction costing approximately \$50,000,000, but there is no indication to what extent the government plans to put this into effect.

For many months the Construction Council has been working on plans for reviving the building industry. It was originally formed by some 17 national organizations, the larger being the Canadian Lumbermen's Association, the Canadian Institute of Architects, the Construction Industries Association of Canada, the Trades and Labor Council, and the Engineering Institute.

The National Council was formed by the organization badly hit by the depression to devise some means to revive building activity not only by governments but by private firms. It made a survey right across Canada calling to its aid boards of trade and municipal mayors and councilors.

This survey brought forth a list of around \$400,000,000, according to those who worked on it, which the government was advised to undertake. This was held by the government to be outside the capacity of the country at this time, and it was trimmed down under a sub-committee.

Declare Cost Too High

Protest Made Over Government Expenses in Yukon

Ottawa. The cost of government in the Yukon was too expensive for its population and the revenue derived, Pierre F. Casgrain (Lib., Charlevoix-Saguenay) protested in the House of Commons.

Items appeared in the main estimate amounting to \$228,500, the Liberal member stated. In 1930, \$20,000 was spent out of the Dominion treasury for direct relief of the Yukon, which had a population of 1,000 to 2,000. "The expenditures made there for direct relief should be carefully scrutinized," the chief Liberal whip continued. The amount of \$20,000 was quite large.

Investigate Radio Salaries

Ottawa. Information respecting the salaries paid members and staff of the Canadian Radio Broadcasting Commission, and other details of the financial operations of that body, will be furnished the House of Commons committee on radio, pending a later decision by the committee, the facts will not be made public.

Aviator To Take A Rest

Edmonton.—After piling up a total of 40,000 miles at the controls of the big all-metal Junkers freighter on flights throughout the northland this winter, Walter Gilbert, chief pilot of Canadian Airways in the Mackenzie River district, landed here en route east for a well-earned holiday during the in-between season.

Hutterites For Alberta

Colony From South Dakota To Settle Near Lethbridge

North Portal, Sask. Recollections of 1909-1910 were recalled at the border when a train of 16 cars of stock and settlers' effects, belonging to the Hutterite colony from Alexandria, S.D., cleared customs en route to Welling, near Lethbridge, Alta., where 5,000 acres of land have been purchased. Representing an investment of \$175,000, their holdings in South Dakota were disposed of at about the same price per acre as the purchase price in Alberta.

Mixed farming, including corn and sugar beet raising, will be followed in their new location, where horse power largely will be used, only two tractors being brought in.

Sweepstakes Bill

Reveals Third Reading In The Senate

Ottawa.—Bitterly opposed to the last by an opposition which included the leaders of the two parties, Rt. Hon. Arthur Meighen, government, and Hon. Raoul Dandurand, Liberal, the hospital sweepstakes bill received third reading in the senate. It passed by a vote of 37 to 20.

The bill now goes to the House of Commons, where it will stand on its merits and pass or fail on a non-vote.

The senate also rejected a move on the part of Hon. J. H. Rainville, of Montreal, to authorize the use of the proceeds of sweepstakes for "educational or charitable purposes" instead of restricting it to hospitals.

Almost Ready For Debate

Ottawa. The whole question of sweepstakes will probably be before the House of Commons shortly. The government will await that debate before formulating any legislation either in regard to legalizing sweepstakes or changing the laws respecting informers being given the winning of any sweepstakes ticket.

Empire Aviation

London.—No concrete scheme for a trans-Atlantic air service to and from Canada has yet been put forth, Sir Philip Sassoon, under secretary for air, declared in the House of Commons when questioned as regards the development of empire aviation.

Completes Chain Of Support

Quebec.—Quebec joined the parade of Canadian provinces which have taken steps to support what they would take steps to support the natural products marketing bill of the Dominion government. Quebec stepped in line and completed the chain of support from coast to coast.

Police Officer Accused

Saskatoon.—Detective William Lasko of the city police force was accused of manslaughter by an assault court jury. Mr. Justice J. F. L. Embury not only concurred in the verdict but commanded the officer's action.

Hardships Of Byrd Party

Sleigh Dogs Die In Harness From Intense Cold

Little America, Antarctica. How they conquered intense storms and temperatures 61 degrees below zero in "building" a road 100 miles to the south was told by the main southern party of the second Byrd Antarctic expedition.

Capt. Alan Irvin Taylor, formerly of the Royal Canadian Mounted Police and the Royal Flying Corps, was in command of the party.

They spent a month behind three nine-dog teams on the rolling ice barrier, marking a trail with orange flags and putting down food depots so that next spring a trek can be made to the Endicott Ford and Queen Mauds ranges.

"We had one terrible day," the Canadian recounted.

"We broke camp early with the hope of making 75 miles by night. The temperature was 43 below. A 31-mile wind made it cruel. The snow was like sand it was tough going."

"Ronnie froze his wrist harnessing the dogs, and later both cheeks; Paul suffered a frost-bitten cheek. My finger froze." But it was tougher on the dogs.

"The wind picked up drift from the surface, and the dogs got the full flush of it. They shut their eyes and kept crawling, sometimes belly-deep in the loose snow. First a cog of Romeo's team died in harness. Then one of my team founder, and the merciful thing was to shoot him."

"The nights were like long nightmares. Many times my sleeping bag had 20 pounds of ice on it. On the 26th we lost another dog."

"Neige, a file dog in my team, caved in and I carried him on the sled for a while, but just before we reached 50-mile depot he died."

The men told also of a snow squall on March 16 when "the air shook with a sound like the roar of 1,000 locomotives, and for miles the barrier surface trembled and settled three or four inches."

Urge Publicly-Owned Bank

Resolution Adopted In Alberta To Be Forwarded To Ottawa

Edmonton. Adopting a resolution moved by W. R. Howson, Alberta Liberal leader, the legislature declared that the central federal bank, or bank of Canada, should be a publicly-owned and operated institution.

The resolution will be forwarded to the Dominion government.

Frederick Browne, speaking briefly

during the debate, asked why a few

years in Canada should be permitted

to own shares in what probably

would be the most important and

safest financial institution in the

country. They went to have a six

per cent. guaranteed dividend and he

could not see the logic of it, he said.

A special freight rate for at least

one year on coarse grains shipped

from Alberta points to eastern Canada

is to be urged by the legislature.

A resolution to that effect was adopted.

Bill Has Second Reading

Measure Designed To Cut Toll Of Road Fatalities

London.—Senator Cairine Wilson of Ottawa, wearing a scarlet hat, was an interested listener in the Dominion's gallery of the House of Commons while the government moved second reading of its transport bill, a measure designed to cut the increasing toll of road fatalities, over which the country has become much exercised.

The bill sets a speed limit of 30 miles an hour in urban areas with lower limits for heavy commercial vehicles, which are also required to carry distinguishing lights.

Will Represent Dominion

Toronto.—Miss Betty D'Estelle, 18, of the 7th Kingston, Ont., chapter, Canadian Girl Guides, has been chosen to represent Canada at the international encampment at Aeboden, Switzerland, July next.

RETIREMENT OF CANADA'S SENIOR TRADE COMMISSIONER BRINGS SHAKEUP

With the recent retirement of Harrison Weston, as chief Canadian Trade Commissioner in the United Kingdom, four well-known Canadian service men took to more important posts in Canada's foreign trade service. Frederick Hud, trade commissioner in New York, becomes chief trade commissioner at London, while Douglas S. Colz (top right) moves from Bristol, England, to take Mr. Hud's place in New York. F. H. Palmer (bottom left), Canadian Trade Commissioner in Argentina, and A. E. Blane (bottom right) from Rio de Janeiro, Brazil, take Colz's posts. All these Trade Commissioners have been abroad for periods ranging from seven to ten years, and have done much to develop Canada's rapidly growing export trade.

World Wheat Committee Would Fix Minimum World Export Prices

Rome. The expert sub-committee of the world wheat advisory committee, had recommended creation of another sub-committee to meet in London and settle the question of fixing actual minimum world export prices.

These prices it suggested, should be based on a five or 10 per cent. increase in the price of Manitoba No. 2 wheat.

It suggested prices of other grades should be fixed so as to now maintain the ratio they have now with relation to Manitoba No. 2.

The second sub-committee, it said should be established beginning May 4, is to establish a schedule of minimum prices, to be the point of export of exports in New Brunswick were carried out as regularly and as efficiently as in any province in Canada.

In answer to the Dominion Auditor-General's alleged charges regarding relief irregularities in New Brunswick, Premier L. P. D. Tilley (above) stated: "When the investigations are completed, I believe, it will be found that relief disbursements in New Brunswick were carried out as regularly and as efficiently as in any province in Canada."

The second sub-committee will be the effect of reducing Canadian exports and would consequently encourage exports from other countries.

In a contrary case, such as not getting a reasonable demand for wheat in relation to the export quota, Canada would be accorded a reduction in price, enabling it to sell its wheat more advantageously.

The advisory wheat commission is to be authorized, under the "sub-committee's proposals, to argument at plenary sessions, if all members agreed, all minimum prices with reference to supply and demand and world commerce.

The Rome sub-committee concluded with a recommendation that the advisory commission, after having disposed of other topics in the order of the day here, meet in London, May 14, that all countries which signed the wheat accord be invited to be present on that date and that the meeting work toward reaching a speedy agreement to be made effective June 1, or as soon afterward as possible.

Saga Of The Sea

Soviet Pilots Rescue 102 Persons From Ice Floe

Moscow.—Saga of the sea, unparalleled in modern times, reached a dramatic conclusion when Soviet pilots rescued the last six persons of a party of 102 marooned on an Arctic sea ice floe two months ago.

The aviators a few hours earlier had conquered hazards of the far north and brought 22 to mainland at Cape Van Karem, Siberia, from the dangerous ice pack on which they sought refuge when their ship, the Cheliuskin, was crushed in the ice February 13 and sank.

Will Ship Via Churchill

Plan For Saskatchewan Wheat If Rates Are Favorable

Prince Albert, Sask.—One-quarter of the wheat in storage in country elevators between the head of the lakes and Vancouver is in elevators in this division of the Canadian National Railways, Superintendent J. H. McKinnon declared. There are 100,000 bushels stored in elevators of this division of the total of 40,000,000 for the west. The Saskatchewan Wheat Pool is holding wheat in its elevators for shipment via Churchill this year if rates make this profitable.

Grasshopper Fight

High Winds And Soil Drifting Will Have Little Effect On Pest

Saskatoon.—Suggestion that high winds and soil drifting have exposed grasshopper eggs to the weather causing them to dry out and become infertile, offers little hope to farmers in the infested areas. K. M. King, federal entomologist here, considers.

The soil blowing occurs chiefly from the fields of bare summerfallow and at least 95 per cent. of the grasshopper eggs are laid in stubble or sod that will not drift.

Mr. King also held out no hope that gophers would eat enough grasshopper eggs to materially affect the numbers of these insects. By actual count it is found that in a large part of the provinces there are more than 50 eggs to the square foot. If these were eaten by gophers to eat the grasshopper eggs, the gophers would be a worse pest than the hoppers. Gophers and mice, the latter around the buildings, may eat a few eggs but these will make no impression on the main infestation.

Traffic Accidents In Britain

London.—Ninety persons were killed and 4,035 injured in traffic accidents in Britain during the first week of April, according to an official statement made public here.

Ask For Commission To Inquire Into Livestock Marketing

Ottawa.—Appointment of a commission to inquire into all phases of livestock marketing in Canada was proposed to the parliamentary price spreads and mass buying probe by the Saskatchewan livestock board.

The board's communication proposed the commission would be an amalgamation of phases of livestock marketing brought out at the present inquiry. Sittings would be held, it was suggested, in important live-stock centres.

The Winnipeg Livestock exchange, on behalf of eight commission houses, protested against the decrease in commission rates to come into effect this week. The reductions were ordered by the department of agriculture.

Charging the Ontario government, "under pressure by somebody," had failed to enforce an act on the statutes, Ross Chapman, of Toronto, testified before the committee.

The law he referred to was one which provided truckers might obtain bill of lading covering consignments to commission men at the stock yards. Under the bills of lading,

Efforts Being Made To Hold British Market For Our Food Products

London.—Negotiations shortly between British and Australian governments regarding expiring portions of the trade agreement signed at Ottawa may conceivably have an important bearing on future discussions with other Dominions.

Stanley Bruce, Australian high commissioner, it was thought, would likely play an important role in coming discussion in laying the foundation for wider negotiations necessary.

The Ottawa agreements generally, as with Canada, are for a period of five years, expiring in 1937, but so far as meat is concerned the agreement with Australia expires at the end of next June, while the dairy products agreement runs out next year.

Meanwhile, differences of opinion between Hon. Walter E. Elliot, minister of agriculture, and Walter Runciman, president of the Board of Trade, are said to be growing. The

Boy Scout and Girl Guide Notes
Coleman Troops

Meeting in Hillcrest on Tuesday evening, representatives of Hillcrest, Bellevue, Blairmore and Coleman Boy Scout local associations discussed the coming season's activities.

One of the principal features will be the flag day on June 30, a province wide effort to raise funds by the sale of small flags. The Boy Scout movement, the finest international co-operative effort among boys in the world, had gained considerable support in the Pass towns, and it is anticipated that with a well planned campaign, flag day will receive a good measure of support from Pass towns.

Those present at the meeting were C. J. Tompkins, president; Joe Norton and Albert Marks, Hillcrest; past president J. O. Westrup, Hillcrest, Rev. A. S. Partington, acting commissioner; Regis Jones and H. T. Halliwell, Coleman; J. J. McIver, W. R. Warn, Arthur Emerson and Jim Radford, Bellevue; J. E. Gillis, Blairmore.

Commissioner Gresham, who has been commissioner for two years, and has taken an active interest in the Scouts, is at present in hospital in Calgary, but it is hoped that he will be able to resume his activities in the near future. In the meantime, Mr. Partington will carry on as commissioner, after having faithfully served the association for over two years as secretary.

The handicraft exhibit held in connection with the provincial meeting of the Canadian Girl Guides Association in Edmonton on April 7 had over 500 exhibits. The following from the C.N.P. District were winners:

Rangers—French Knots, 1st Lillian Rhodes, Bellevue. Thrift, special prize—Cloth, Bellevue. Afghan, Norah McLeod.

Guides—French Knots, 2nd Elva Wood, Bellevue. Photography, 1st, and 2nd, Pine Borden. Pen and ink—2nd. Mary Pagluco, Bellevue.

Brownies—Knit Scarf, 2nd, Fay Grant. Hemming, 1st, Fay Grant. Darning, 1st, Jocie Williams. Darning, [9 11] 2nd Carrie Churila. 2nd, Pat Emmerson.

Mr. Albert Parsons and Miss Ivy Adamson were married at Michel on Monday, at the home of Mr. and Mrs. H. A. LeRoy, Rev. A. G. McMorine officiating. Miss Florence LeRoy was bridesmaid and Albert Parsons was best man. The bride's parents from Theodore, Sask., attended the wedding.

Boxing Program Saturday

F. Barrington has completed plans for a first class boxing card in the Community hall Saturday evening. It is urged that tickets be purchased early to ensure good seats. Morrison vs Jeske is the main bout, which promises to be a real 'go'.

WORLD HAPPENINGS
BRIEFLY TOLD

David Lloyd George recently completed 44 years unbroken service as member of the House of Commons for Carnarvon.

Train wreckers derailed the Vienna-Paris-London express between Wels and Linz, capital of upper Austria, causing two deaths and a score of injuries.

"Amps" throughout the Dominion will mourn the death of Sergeant Richard Wilkinson, 46, past president of the Amputations Association, in the Caricole Street Veterans' hospital, Toronto, recently.

"No such action has been taken," was Premier R. B. Bennett's reply in the House of Commons to a question if the government contemplated signing an air mail contract with Canadian Airways.

Lights or reflectors on all horse-drawn or other vehicles operating on main or secondary highways are required in a bill to avoid the Vehicles and Highway Traffic Act, 1924, which has been introduced in the Alberta legislature.

Royal Canadian Mounted Police officers will be placed in railroads yards shortly to discourage the wandering among those foot-loose persons who wish to do their spring travelling on the "roads", it was learned.

Ten per cent income tax imposed on judges, officers of the military, naval and air forces, and of the Royal Canadian Mounted Police, is continued for another year in a bill which received first reading in the House of Commons.

United States exports to Canada for February totalled \$19,661,987 against \$11,500,787 in the same month last year, the United States department of commerce announced. Imports from the Dominion for the month were \$14,163,439, against \$8,539,394 last year.

Withdraws Offer Of Million

Lady Houston Thinks London Neglecting Air Defence

An offer of \$1,000,000 towards the air defence of London was withdrawn by Lady Houston, wealthy air enthusiast who backed several Schneider cup efforts, with a gesture of rage at Prime Minister Ramsey Mac Donald for his "contempt."

"I alone have dared to point out the dire need for air defence of London," she wired the prime minister. "You have muzzled others who have deplored this shameful neglect. London is the only capital in Europe without any air defence. You have treated my patriotic gesture with a contempt such as no other government would have been guilty of towards a patriot."

Was Once Populated

French Scientists Find Rich Art Treasures On Sahara Desert

Professor Gauthier and Reggasey of Algiers University reported they had found indications that a civilization, now lost, once flourished in the Sahara desert. The two French scientists arrived from an exploration of the Tunis Des Ays region 30 miles south of Port Poligiac to say they had dug, from the barren sands, rich art treasures. These, they said, included rock paintings and carvings with stone age axes and tools.

The London area alone contains over 200,000 registered private automobiles.

Gardening

Now Is The Time To Think About The Flower Garden

Along borders and in front of flower beds it is best to have something tiny and one of the very best for this purpose is Alyssum. This grows a few inches high and when once started defies drought, weeds and general neglect. It bears a profusion of tiny white flowers, beautifully scented. When seed pods start to appear the plant can be sheared back an inch or so with clippers or even a lawn mower and in ten days another crop of flowers will start. Like the poppy the seeds are short and to insure thin, even planting, it is well to mix with a little dry sand and now the mixture. Another attractive dwarf flower and just as easily grown is the portulaca. This is a wonderful thing for hot, dry sunny spots. The waxy flowers come in several bright colors. A little larger and also a continuous bloomer is the Calceolaria or pot Marigold. The plant is bushy and reaches a height of eight to twelve inches. Foliage is dark green and the large flowers are orange and yellow. The California Poppy is a shade smaller. The foliage is greyish green and very fine. Flowers are single, a golden yellow and almost two inches across. Clarkia, Larkspur, and Marigolds are larger plants, but all are showy and easily grown. These three require from a foot to 18 inches between plants and should be placed about the centre of the flower bed, preferably in clumps. At the back, or for use as screens one can plant Cosmos and Sunflowers. These are late bloomers coming in August and September. The garden sunflowers are much more ornamental than their cousins out in the corn field. Then there are Nasturtiums, Pansies and Sweet Peas which are well known. Most of these plants are planted just as soon as the soil is fit to work, but any good seed catalogue or the packets themselves contain cultural directions.

As soon as the ground is ready, one may get in the first vegetables and flowers. In the vegetable line, sow these things of which the leaves are eaten. These include Lettuce, Cress, Spinach, Radish, Mustard and Peas. There is little danger from planting them too soon as all will stand some frost. Next in line will be those bulbous or root vegetables such as Beets, Onions, Carrots, Early Turnips and Parsnips. At this time the first of the Potatoes are planted and although not as hardy as the others mentioned they are not susceptible to frost until the plants come through the ground which will be in a week from a fortnight after planting depending upon weather conditions. Repeat planting of practically all of the early vegetables every ten days until about the middle of June so that the harvest season for these will be extended. In the third planting group will come the really tender things, such as Tomato plants, Melons, Cucumbers and Egg Plants which are best kept indoors or ununtil all danger of frost is over. Among the hardest annual flowers are the Calendula, Candytuft, Alyssum, California Poppy, Cosmos, Calceolaria, Larkspur, Poppy, Lantana, Virginia Stock and Sweet Peas. The latter must be sown as early as possible. After danger from frost has practically disappeared, Zinnia, Nasturtium, Aster, Stocks, Balsam, Snapdragons, Marigold and Gladiolus may be planted. Dahlias and Cannas are a little more tender and should not go in until all danger of frost is over.

Gardeners will find the current seed catalogue indispensable. The height of the flowers, times of blooming, whether they are suitable for such special purposes as edging, screening, cutting and fragrance are all mentioned and are indispensable facts in laying out a satisfactory garden. In the vegetable line catalogue continues this useful service by listing different varieties under the heading of Early, Late and Medium so that one can have a succession of vegetables right through.

Little Journeys In Science

SUGAR FROM WOOD

By Gordon H. Guest, M.A.

Science has recently amazed the world by making chocolates from ordinary kindling wood. This feat was accomplished by a famous German chemist, Professor Friedrich Bergius, after ten years of experimentation in his laboratory. This chemist has perfected a process for making sugar from ordinary lumber and he claims that this wood sugar is sweeter and healthier than ordinary cane sugar. He also maintains that in countries where wood can be obtained in large quantities, such as the Baltic States, Roumania, Northwest United States and Canada, wood sugar can be produced more cheaply than cane sugar is produced in the countries located in the torrid zone.

A small factory has been constructed in Germany which commenced operations last May and can produce from 6,000 to 8,000 tons of pure sugar per year from wood. The wood is ground and dried wood is treated with mineral acid until a syrup is obtained. This syrup of molasses is then boiled to drive off the acid and a further step in the process changes it into wood sugar. This sugar, although not as sweet as cane sugar, can also be used as a fodder for animals, for making yeast, for the production of alcohol and for other purposes. Another step converts wood sugar into chemically pure grape sugar, which can be used in the candy industry, replacing cane or beet sugar.

This sugar derived from wood is healthful sugar because it consists only of glucose which is commonly called grape sugar. Glucose is absorbed by the body at once, whereas cane sugar must be digested into grape sugar. Thus, there is no strain on the body in using glucose rather than cane sugar. Gluceric, acetic acid and pure medicinal alcohol are also being produced from wood. In the same kind of saw dust has been introduced in Germany for use in barns. This saw dust is a by-product in the making of wood sugar.

This sugar derived from wood is healthful sugar because it consists only of glucose which is commonly called grape sugar.

The maxim of the rabbis was, "There is nothing good but the Law." Jesus had to fling the young man out of that group of thoughts as he knew before Jesus in the public street, and calling him his "Good Master" in the ears of men, Nicodemus preferred to see his home, and others to come to Jesus, but a man of wealth and official position must have been intensely in earnest about eternal life to throw himself in the dust before Jesus. "I come to you from Jesus of Arimathea, bearing this knave to Jesus in a fit place. Joseph thought of his son's 'honorable countenance', and kept his discipleship secret, for fear of public opinion. Let us imagine Nicodemus doing this. Nicodemus believed that Jesus was a Teacher sent from God. But he never said so openly. He, too, thought of his position and his reputation, and came to Jesus in the hope of finding on his knees before Jesus in the public street, and calling him his "Good Master" in the ears of men. Nicodemus preferred to see his home, and others to come to Jesus, but a man of wealth and official position must have been intensely in earnest about eternal life to throw himself in the dust before Jesus.

"Why asketh thou me concerning that which is good? One there is who is good," and to obey his will is your right. The author of the book was Jesus' answer.

The maxim of the rabbis was, "There is nothing good but the Law."

LOCAL AND GENERAL

Mr. and Mrs. Wm. Fraser and son "Bill" motored to Lethbridge on Monday.

Miss Daisy Burles of Cowley is spending the week with Miss Jean Pattinson.

Mr. W. L. Bippin held an afternoon tea on Monday in honor of Mrs. N. Bosworth of Vancouver.

Mr. J. T. Berry, inspector of Dominion Insurance Co. of Calgary, is visiting Mr. and Mrs. A. M. Morrison.

Mr. and Mrs. Frank Celi of Creston were here on Monday attending the funeral of Chas. Biafore, of Blairstown, who died at Calgary. Mr. Biafore operated for a short time the studio of Tony DeCecco.

A definite appropriation for advertising is as necessary to a progressive business as it is for taxes, insurance or other overhead expenses. Nothing can give better returns if used judiciously and with forethought.

A full report of the hockey club banquet and annual meeting will be made in the next issue of the Journal. It was held in the Grand Pavilion a very sumptuous supper being served, with refreshments by Distributors Ltd.

COLEMAN AUTO AGENCY
APPOINTED FOR HUDSON-
ESSEX OF CANADA

Coleman Auto Agency (The Motor-drome) has been appointed new dealers for this area for the 1934 Hudson line.

Orders of Terraplanes and Hudsons for immediate shipment total more units than during the first five months of the year, states Mr. Mackinnon, General Manager. A general demand for immediate delivery is noticeable throughout the Dominion and Hudson employment figures reflect that the number of workers is greater than at the same period in 1933.

For 1934, Hudson-Essex has the broadest line of models in the company's history and buyers are able to choose from 33 separate types. The present volume of sales lies in the fact that the Terraplanes are in the lowest-price field while the Hudsons are in the lowest-price straight range since the introduction of the Hudsons. Total sales are expected to be more than double the number of Canadians engaged in the sale of the Hudson line than there was a year ago. Officials of Hudson-Essex express an unusual degree of optimism both in factory and sales network activity.

All those interested please leave their names with the secretary or president.
